In this editing the solo section of the carol has been taken out of the order in which it stands in the original edition so that it may precede the chorus which belongs to it.
When strings are not available for accompaniment, these parts, originally intended for Viols, may be played upon the pianoforte or organ. The short-score printed in this Edition forms no part of the original text.

There are four stanzas to the carol, the chorus being repeated at the end of each stanza. One small alteration in the words has been introduced here for practical purposes, but the original words will be found printed in full at the beginning of this Volume. In the part-books the first stanza alone is printed with the music. In this Edition the fourth stanza has also been fitted to the music.

pure to this day,
this glit - tering day
did spring King,

the pre - ci - ous seed
O praise his name
that let on - ly
